

CLAIMS

1. A protein comprising any one of the amino acid sequences represented by Sequence Nos. 1 to 3.

5 2. A DNA coding for the protein according to Claim 1.

3. A cDNA comprising any one of the base sequences represented by Sequence Nos. 4 to 6.

10 4. The cDNA according to Claim 3 comprising any one of the base sequences represented by Sequence Nos. 7, 9 and 11.

5. An expression vector capable of expressing the DNA according to any one of Claims 2 to 4 by in vitro translation or in eucaryotic cells.

15 6. A transformation eucaryotic cell capable of expressing the DNA according to any one of Claims 2 to 4 and of producing the protein according to Claim 1.
